Team player

Detail-oriented

## VOLUNTEERING

**Foster at Fetch & Release  
Dog Rescue**

January 2021 - Present

## PROFILE

I am a front end web developer who approaches learning with a hands-on approach. My experience in web development and in the trades has led me to become a detail-oriented, creative problem-solver. When I'm not working on a project, you'll find me teaching my dog new tricks, cooking my favourite dishes, playing old Gameboy games or weight training at the gym.

## WORK EXPERIENCE

### Q4 - Toronto, ON

#### *Web Developer*

December 2021 - Present

- Built custom investor relations websites for publicly traded companies based on client-specific design criteria and feature requirements
- Implemented extensive change requests on existing client websites
- Worked closely with colleagues in quality assurance and implementation management to ensure that high quality websites were delivered by set deadlines

Some of my work... [Delmonte](#), [First Business Financial](#), [J.B. Hunt](#), [QS](#)

### True North Underpinning - Toronto, ON

#### *Assistant Foreman*

March - August 2018

- Assisted site foreman in ensuring that projects were completed on schedule by tracking major milestones and assigning tasks based upon skill set
- Coordinated with customers and other tradesmen to increase efficiency of renovations

### AccuServ Heating and Air Conditioning - Toronto, ON

#### *Licensed Gas Technician - [Portfolio Available Here](#)*

May 2016 - 2017

- Collaborated with experienced gas and refrigeration technicians to repair and install high quality HVAC systems and equipment in the GTA
